ALL DOLLED UP The Penelope Peapod doll is all the rage, with Julianne Moore's daughter, Liv, 4, as one of its fans. It comes in a wicker carrier with a cotton liner that's offered in 15 designs, including new patterns by Kate Spade. The carrier transforms into the doll's bassinet. Little ones on the go can also use the basket/bassinet as a handbag (\$40; penelopepeapod.com).
